# MEDHAVI PRAVEEN SHENVI

+91-9880452697 | medhavishenvi4@gmail.com | www.linkedin.com/in/medhavi-shenvi | https://github.com/MedhaviShenvi11

## CAREER OBJECTIVE

Aspiring Computer Science engineer with a strong passion for software development, Android application development, Artificial Intelligence and Machine Learning. Eager to apply technical knowledge, problem-solving skills, and innovative thinking to develop impactful solutions while continuously learning and growing in the IT industry.

## EDUCATION

Bachelor of Engineering (B.E.) –Computer Science and Engineering, RajaRajeswari College of Engineering, Bangalore
CGPA: 9.46 | Graduation Year: 2026
Pre-University (PCMB), Gokhale Centenary PU College
Percentage: 92%

## TECHNICAL SKILLS

Problem Solving, Decision Making, Efficient Communication, Debugging, Team Collaboration, Adaptability
**Languages** : Python (OPP), SQL, core Java
**Tools** : Git and Github, VS Code, Jupyter Notebook, Pandas, NumPy, Scikit-learn, MySql
**Domains** : Android Development, AI, Machine Learning
**Web Technologies** : HTML, CSS, JavaScript

## PROJECTS

1. Plant Leaf Disease Detection
   - Developed a Python-based machine learning application to detect and classify plant leaf diseases from leaf images.
   - Applied image processing and classification techniques to support automated disease detection.
2. A Situation-Based Predictive Approach for Cybersecurity Intrusion Detection and Prevention Using Machine Learning and Deep Learning Algorithms in Wireless Sensor Networks of Industry 4.0
   - Developing a predictive model using Machine Learning and Deep Learning algorithms to detect and prevent cybersecurity threats in Industry 4.0 wireless sensor networks.
   - Used Python and MySQL for data processing and database operations.
3. Shilpa Kala – Android App Development Using Generative AI
   Developed an Android application to support artisans and handicraft products using Kotlin, Firebase, and Generative AI-assisted development techniques.

## INTERNSHIP EXPERIENCE

1. Android App Development Intern – MindMatrix (2026).
   - Developed Android applications (Android Development) using Kotlin and Jetpack Compose, delivering a native app that met design specifications and received positive user feedback.
2. Full Stack Development Intern – ShadowFox (2025)
   - Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.

## CERTIFICATIONS

- International Level Student Workshop 2k24
- Internship Completion Certificate – ShadowFox
- Android App Development Using Gen AI – Mindmatrix.io
